Introduction to Memphis

Memphis design is an influential postmodern style that emerged from the celebrated Memphis Design Group of Milan in the early 1980s. It was led by the legendary Italian designer **Ettore Sottsass** and had a significant impact on the design world.

Key Characteristics

The style is characterized by:

- **Clashing Colors:** High contrast, saturated colors like Hot Pink, Cyan, and Yellow.
- **Geometric Shapes:** Triangles, circles, and squiggles used decoratively.
- **Abstract Patterns:** Confetti, grids, and bacteria-like patterns.

Typography & layout

This template uses **Bauhaus 93** for headings to capture that retro-futuristic vibe, and **Century Gothic** for body text to ensure readability while maintaining a geometric feel.

lists

We use custom geometric markers for lists:

- First level item (Box)
 - Second level item (Circle)
 - ▶ Third level item (Triangle)
- Another item to show spacing.

Block Quotes & Alerts

> Memphis is not just a style, it's an attitude. It's about breaking the rules of "good taste".

Design Tip

Don't be afraid of empty space or asymmetry. Memphis design thrives on unexpected layouts!

Tables & Data

Here is a “loud” table demonstrating usage of the custom `memphis-table` function:

Element	Color	Shape
Primary Header	Pink	Rect
Secondary	Blue	Line
Accent	Yellow	Triangle
Background	White/Grey	Confetti

Code & Technical

Even code blocks get the Memphis treatment:

```
fn main() {  
  println!("Hello, 80s!");  
  let style = "Memphis";  
  assert_eq!(style, "Awesome");  
}
```

Mood & Occasion

Mood: Youthful, quirky, anti-establishment. **Occasion:** Great for creative brands, event posters, or retro fashion.

Conclusion

This template provides a starting point for creating documents with a distinct personality. Use it wisely – it's loud!
